## Why Critical Illness Coverage?

Almost everyone knows someone who has survived cancer, a heart attack or a stroke. Medical technology has dramatically increased the chances of surviving critical illnesses. One challenge is that, while fighting back, everyday life and responsibilities need to go on.

**Critical Illness Coverage helps you ensure that you can keep your life running** — without losing your focus on restoring your health.

### How the Benefits Work

When the full or a partial critical illness benefit is paid, both the critical illness benefit amount and the term life benefit amount are reduced accordingly. When a partial benefit is paid, 75% of the total critical illness benefit remains. If policy benefits are reduced, the monthly premium is also reduced to correspond to the remaining benefits. The policy will continue to pay critical illness and/or life benefits until the policy term ends or remaining benefits are paid.

## Limitations and Exclusions

- Cancer first diagnosed within 90 days of your plan effective date, or any other condition due to sickness first occurring within 30 days of your plan effective date. In such event, your coverage will be terminated and your premium returned

Please read the coverage documents carefully for a complete listing of benefits, limitations and exclusions.

The critical illness accelerated benefits offered under this contract may or may not qualify for favorable tax treatment under the Internal Revenue Code of 1986. Whether such benefits qualify depends on factors such as your life expectancy at the time benefits are accelerated or whether you use the benefits to pay for necessary long-term care expenses, such as nursing home care. If the accelerated benefits qualify for favorable tax treatment, the benefits will be excludable from your income and not subject to federal taxation. Tax laws relating to accelerated benefits are complex. You are advised to consult with a qualified tax advisor about circumstances under which you could receive accelerated benefits excludable from income under federal law.

Receipt of accelerated benefits may affect your, your spouse's or your family's eligibility for public assistance programs such as medical assistance (Medicaid), Aid to Families with Dependent Children (AFDC), supplementary social security income (SSI), and drug assistance programs. You are advised to consult with a qualified tax advisor and with social service agencies concerning how receipt of such a payment will affect your, your spouse's and your family's eligibility for public assistance.

Premiums may be changed after the initial guaranteed period. Any increase in premium is subject to Time Insurance Company's expectations as to one or more future cost factors, including persistency, expenses, mortality and interest; and will not increase benefits.
